Federal Aviation Administration

Availability of Noise Compatibility Program for Chicago Executive Airport, Wheeling and Prospect Heights, Illinois

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the updated noise exposure maps submitted by the Chicago Executive Airport under the provisions of the (Aviation Safety and Noise Abatement Act) and Title 14 Code of Federal Regulations (CFR) Part 150 are in compliance with applicable requirements.

DATE: This notice is effective [insert date upon publication in Federal Register], and applicable August 9, 2018. The public comment period ends September 10, 2018.

FOR FURTHER INFORMATION CONTACT: Ms. Amy Hanson, Environmental Protection Specialist, CHI-603, Federal Aviation Administration, Chicago Airport District Office, 2300 East Devon Avenue, Des Plaines, IL 60018. Telephone number: 847-294-7354. Email: amy.hanson@faa.gov.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the updated noise exposure maps submitted for Chicago Executive Airport are in compliance with applicable requirements of 14 CFR part 150, effective (Note 1). Under 49 U.S.C. section 47503 of the Aviation Safety and Noise Abatement Act (hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure

maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport. An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of 14 CFR Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses. The FAA has completed its review of the updated noise exposure maps and accompanying documentation submitted by Chicago Executive Airport. The documentation that constitutes the "noise exposure maps" as defined in section 150.7 of Part 150 includes: Figure D3, Existing (2016) Noise Exposure Map; Figure D4, Future (2022) Noise Exposure Map; Table B2, Summary Annual and Aircraft Operations Forecast; Figure D1, Arrival Flight Tracks; Figure D2, Departure Flight Tracks; Table E1, Existing Land Use Within Existing Noise Contours, 2016; and Table E2, Existing Land Use Within Existing Noise Future Noise Contours. The FAA has determined that these updated noise exposure maps and accompanying documentation are in compliance with applicable requirements. This determination is effective on August 9, 2018. FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of FAR Part 150. Such determination

does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act.

These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

Copies of the full updated noise exposure map documentation and of the FAA's evaluation of the maps are available for examination, upon prior appointment during normal business hours, at the following locations:

Chicago Executive Airport

1020 South Plant Road
Wheeling, Illinois 60090
